VOLUME 29 CONTENTS

Vol. 29, No. 1

K. N. Yu	1	Mitigation of indoor radon pollution in buildings in Hong Kong: covering materials on internal building surfaces
W. J. Chancellor	5	Cool tropical buildings: lessons from old-style designs
S. A. M. Said and **E. T. Al-Zaharnah**	13	Development of comfort zone charts using the isopleth chart technique
G. N. Tiwari, M. Upadhyay and **S. N. Rai**	21	A comparison of passive cooling techniques
P. G. Rousseau, E. H. Mathews and **L. J. Grobler**	33	Integrated thermal simulation of buildings and regenerative evaporative coolers
S. C. Kaushik and **G. Suijit Kumar**	43	Analysis and performance evaluation of an underground solar airheater coupled non-airconditioned building for hybrid space conditioning
M. Krarti	55	Time-varying heat transfer from slab-on-grade floors with vertical insulation
M. Krarti	63	Time-varying heat transfer from horizontally insulated slab-on-grade floors
P. G. Richards and **E. H. Mathews**	73	A thermal design tool for buildings in ground contact
P. Dolley, C. Martin and **M. Watson**	83	Performance of walls clad with transparent insulation material in realistic operation
A. D. Irving, T. Dewson, G. Hong and **B. Day**	89	Time series estimation of convective heat transfer coefficients
M. G. Davies	97	Longwave radiant exchange between rooms
M. A. Wilson, W. D. Hoff and **C. Hall**	99	Water movement in porous building materials—XI. Capillary absorption from a hemispherical cavity
A. J. F. Rutten	105	Sky luminance research imperative for adequate control of temporary supplementary artificial lighting installations
L. Mulvin and **J. O. Lewis**	113	Architectural detailing, weathering and stone decay
Announcements	139	

Vol. 29, No. 2

T. Stathopoulos, D. Chiovitti and **L. Dodaro**	141	Wind shielding effects of trees on low buildings
J.-M. Fürbringer, F. Foradini and **C.-A. Roulet**	151	Bayesian method for estimating airtightness coefficients from pressurization measurements
A. Baskaran	159	A numerical model to evaluate the performance of pressure equalized rainscreen walls
M. J. Cunningham, M. R. Bassett, D. McQuade and **M. Beckett**	173	A field study of the moisture performance of roofs of occupied newly constructed timber framed houses
M. J. Cunningham	191	Modelling of moisture transfer in structures—III. A comparison between the numerical model SMAHT and field data
E. H. Mathews, M. Kleingeld and **L. J. Grobler**	197	Integrated simulation of buildings and evaporative cooling systems

BAE 29:4-J

E. H. Mathews, A. G. Shuttleworth and **P. G. Rousseau**	207	Validation and further development of a novel thermal analysis method
M. G. Davies	217	The thermal response of an enclosure to periodic excitation: the CIBSE approach
F. Falade	237	Influence of water/cement ratios and mix proportions on workability and characteristic strength of concrete containing laterite fine aggregate
G. D. Holt, P. O. Olomolaiye and **F. C. Harris**	241	Factors influencing U.K. construction clients' choice of contractor
Announcements	249	

Vol. 29, No. 3

PAPERS FROM INDOOR AIR '93

O. Seppänen and **K. Klobut**	251	Editorial
A. J. Baker, S. Roy and **R. M. Kelso**	253	CFD experiment characterization of airborne contaminant transport for two practical 3-D room air flow fields
A. J. Baker, P. T. Williams and **R. M. Kelso**	261	Development of a robust finite element CFD procedure for predicting indoor room air motion
Yuguo Li and **S. Holmberg**	275	General flow and thermal boundary conditions in indoor air flow simulation
J. Niu and **J. v. d. Kooi**	283	Indoor climate in rooms with cooled ceiling systems
T. Yamamoto, D. S. Ensor and **L. E. Sparks**	291	Evaluation of ventilation performance for indoor space
P. Heiselberg	297	Draught risk from cold vertical surfaces
B. W. Olesen, M. Koganei, G. T. Holbrook and **J. E. Woods**	303	Evaluation of a vertical displacement ventilation system
E. Mundt	311	Contamination distribution in displacement ventilation—influence of disturbances
U. Madsen, N. O. Breum and **P. V. Nielsen**	319	Local exhaust ventilation—a numerical and experimental study of capture efficiency
K. Klobut and **K. Sirén**	325	Air flows measured in large openings in a horizontal partition
H. Yoshida, T. Terai and **H. Sueyoshi**	337	Transient analysis of air-conditioning load and room conditions considering simultaneous heat and moisture transport of multi-layered constructions
J. Gabrielsson and **H. Wiljanen**	345	A weather model for indoor thermal calculations
M. Lehtimäki and **K. Heinonen**	353	Reliability of electret filters
P. Kjaerboe and **T. Burt**	357	Air treatment with respect to some organic pollutants in outdoor air
T. Schneider, T. Løbner, S. K. Nilsen and **O. H. Petersen**	363	Quality of cleaning quantified
T. Schneider, S. K. Nilsen and **I. Dahl**	369	Cleaning methods, their effectiveness and airborne dust generation
H. Stymne, C. A. Boman and **J. Kronvall**	373	Measuring ventilation rates in the Swedish housing stock
K. Kovanen, J. Heikkinen and **V. Siitonen**	381	Acceptability of wall exhaust discharges in residential ventilation
H. Kokotti, T. Keskikuru and **P. Kalliokoski**	387	Radon mitigation with pressure-controlled mechanical ventilation

R. Navon and **H. Arkin** 393 Feasibility of direct–indirect evaporative cooling for residences, based on studies with a desert cooler

J. Laine and **M. Saari** 401 Realization of good indoor climate in low-energy office

Announcements 409

Vol. 29, No. 4

S. Ford, G. Aouad, P. Brandon, F. Brown, T. Child, G. Cooper, J. Kirkham, R. Oxman and **B. Young** 411 The object oriented modelling of building design concepts

A. Retik and **A. Warszawski** 421 Automated design of prefabricated building

G. D. Holt, P. O. Olomolaiye and **F. C. Harris** 437 Evaluating prequalification criteria in contractor selection

G. Gan and **H. B. Awbi** 449 Numerical simulation of the indoor environment

E. H. Mathews and **P. G. Rousseau** 461 A new integrated design tool for naturally ventilated buildings part 1: ventilation model

P. G. Rousseau and **E. H. Mathews** 473 A new integrated design tool for naturally ventilated buildings part 2: integration and application

M. Zaheer-uddin 485 Temperature control of multizone indoor spaces based on forecast and actual loads

N. K. Bansal, R. Mathur and **M. S. Bhandari** 495 A study of solar chimney assisted wind tower system for natural ventilation in buildings

M. J. Cunningham 501 Using hygroscopic damping of relative humidity and vapour pressure fluctuations to measure room ventilation rates

D. B. Jouini, M. N. Saïd and **E. G. Plett** 511 Measurements of room air distribution in a ventilated office environment

W. K. Chow and **L. T. Wong** 523 Experimental studies on air diffusion of a linear diffuser and associated thermal comfort indices in an air-conditioned space

R. F. Richards 531 Steady-flux measurements of moisture diffusivity in unsaturated porous media

M. A. Wilson and **W. D. Hoff** 537 Water movement in porous building materials—XII. Absorption from a drilled hole with a hemispherical end

K. N. Yu 545 Radon emanation from concrete with pulverized fuel ash (PFA)

Announcements 549
